Bronze Treatment

Our great value Bronze package starts by preparing your boat, by washing the hull & superstructure and is finished by drying all surfaces. Next we use cutting compound to remove oxidation and then we machine polish to achieve a high gloss finish. High quality products are used throughout this process.

Motor boats - £60.00 per metre*

Silver Treatment

Further to the bronze treatment, the silver standard includes the application of 3M Marine ultra wax. The paste wax vastly reduces the risk of UV damage and gelcoat fade.
