

## Outboard Maintenance From Just £25.00!

To ensure that your outboard is ready to perform next season and stays in top condition, it is very important to protect it ahead of the coming cold winter months...

### How we winterise your outboard...

- Run your outboard through with fresh water to rid the system of any salt build up
- Flush fuel system, stabilise or empty of old fuel depending on the amount remaining in the tank
- Remove spark plugs and spray fogging oil into each of the cylinders or air intake
- Grease all moving parts to ensure they remain free during the winter months

### De-winterisation before launch

- Check all oil levels and top up as required
- Prime the fuel system with fresh fuel so your ready to go
- Start engine, run on fresh water and carry out a visual inspection checking for any leaks or defects
- Clean engine cover to leave it looking great

Up to 20hp - £50.00

20+hp - £75.00

Please tick the relevant box on the 'Winter Works Request Form'

### Outboard Servicing

Darthaven now offers outboard servicing for all makes and models. Please tick either 'go ahead' or 'estimate' on the Winter Works Request Form. We only use genuine parts and our fully qualified technicians will ensure your outboard is running smooth for the next summer season.

### Storage - £25.00

We are also offering the storage of your outboard (up to 10hp) which includes removal, storage in our alarmed/heated unit in Brixham and then refitted back on your boat in the spring. Charged at £25.00 (this covers from the moment your boat is lifted to a week before your boat is re-launched).

**Winterise/de-winterise and store you outboard up to 10hp for just £65.00!**
