POWER EQUIPMENT

Hyundai HY2000Si

The Hyundai HY2000Si is one of the best mid-range leisure generators on the global market. With a continuous 2.0kW output, it is the ideal portable petrol leisure inverter generator for camping, motorhomes, caravans, boats, tents or anywhere you can think you might need clean reliable power. This petrol generator's maximum output of 2200w or 2.2kw, so you'll have more than enough to power your microwave, a small heater or even a hair dryer. When the load is low, like for example, when you're powering a battery charger or lighting system, it has an ECO throttle system which steps in and lowers the engine revs to just above tick over, and this in turn significantly lowers the noise level and also helps with fuel consumption.

Specification:

- Max. Output: 2.2kW / 2200w
- Max. Continuous Output: 2.0kW / 2000w
- Power Output: 4.9hp
- Frequency: 50Hz
- Voltage: 230v
- Current (A): 9.54A Maximum
- Engine: Hyundai HX125, 4.9hp Motor, 4-Stroke OHV
- Displacement: 125cc
- Starting Method: Recoil / Pull Start
- Outlets: 2x230v (AC), 1x12V 8.3a (DC)
- Fuel Type: Unleaded Petrol
- Fuel Capacity: 4.5 Litres
- Running Time: Up to 9 hours
- ECO-Throttle System
- Low Oil Shut Down: Yes
- Digital Overload Protection: Yes
- Noise Level: 58dB @ 7m (with no load)
- Frame: 3mm Polypropylene, Blue
- Dimensions: L: 551 x W: 308 x H: 488 mm
- Weight: 28kg
